Hello, everyone!

Daisuke Yamaguchi (Japan)

I am Daisuke Yamaguchi. I am 36 years old. I have been an AIS member since March.

I met an American at Izakaya in Ueno. Although I am bad at English, we hit it off right away. (The Izakaya where I met him, it served drinks and tasty yakitori even in the daytime.)

I found out my new friend loved ramen, so I bought cup-ramen at a convenience shop and gave it to him. After that we went to Meguro Sta. by the Yamanote line, because he said he did not know how to get there.

We ended up becoming friends, and I wanted him to know more about Japan. I am not sure if he felt the same way as I did, but I had great time with him, even if I only used body language.

This experience made me wonder how it would be to connect with people from all over the world. That is why I decided to join AIS. I look forward to making more international friends through AIS.
